

## GOBLETS IN CRYSTAL POLYSTYRENE PS

The range of goblets in crystal polystyrene PS combines practical usage with top design; they are indispensable for a well-planned, elegant catering service. It is a wide range including: mignon liqueur goblets, goblets for wine, water, soft drinks or beer and two types of champagne flûtes, to suit the style of the reception.

*Cheers*

## CX GLASS

| CODE    | DESCRIPTION                                            | CAPACITY | PCS PER PACK | PACKS PER BOX | PCS PER BOX |
